EXPERIENCE

Coding House — *Instructional Software Developer*

San Francisco, CA | February 2016 - PRESENT

- Designed and built an assignment and grading CMS application used by Coding House students, teachers, and staff.
- Created and implemented advanced computer science fundamentals and technical interview skills training regimen for students.
- Developed partnerships with the tech community and recruiting firms resulting in nearly half of our students getting hired immediately upon graduation.

AEON Corporation — *Foreign English Teacher*

Nagoya, Japan | June 2012 - June 2015

Taught English to adult Japanese students.

Blaine Tech Services — *Project Manager*

Los Angeles, CA | January 2010 - January 2012

Coordinated groundwater monitoring efforts at ~250 sites/quarter throughout California and Washington.

EDUCATION

Coding House — *Full Stack Javascript Development*

San Francisco, CA | October 2015 - February 2016

University of California, Los Angeles — *B.S. Psychobiology*

Los Angeles, CA | 2004 - 2007

PROJECTS

Get It, Got It — *Angular, Firebase, D3*

<https://github.com/patrickshaughnessy/GetIt-GotIt>

Redefining the interactive classroom. A tool for teachers to monitor their classroom, and for students to get the help they need in real time.
